Career Objective

Detail-oriented **Software Automation Engineer** with 3+ years of hands-on experience in automation testing, Python scripting, Robot Framework, and MySQL. Skilled in designing end-to-end test automation, optimizing workflows, and improving data validation processes. Strong foundation in Python, SQL, Robot Framework, with hands-on cloud experience from an internship. Looking to leverage technical expertise in automation and problem-solving to support business and client needs.

Professional Experience

Software Engineer | Inaira Healthcare Technologies

July 2022 – Present

- Developing automation and analytics solutions for healthcare processes, with a focus on HEDIS and clinical data.
- Built automation workflows that eliminated 100% of manual effort in healthcare data processing.
- Implemented analytics solutions that significantly improved HEDIS gap closure efficiency.
- Designed and deployed scalable software systems to support provider and payer workflows.
- Delivered end-to-end automation solutions, enhancing operational efficiency and data accuracy. I will say few morepoints.
- Worked on payer eligibility use cases for more than 6 payers, automating the process of fetching eligibility status and feeding results into the EMR system.
- Built and maintained automation frameworks using Python and Robot Framework to ensure efficient test execution and validation.
- Implemented database handling, MySQLqueries, and file processing logic to improve data accuracy and streamline workflows.

Cloud Architect Intern | Infogain

Dec 2021 – Jul 2022

- Designed and implemented cloud-based solutions to optimize business operations.
 - Collaborated with teams to migrate applications to cloud infrastructure, ensuring scalability and reliability.
 - Gained hands-on experience in cloud security, performance monitoring, and cost optimization.
-

Strengths

- Strong problem-solving skills in automation and analytics
 - Quick learner, adaptable to new technologies
 - Effective collaborator in cross-functional teams
-

Projects

- **EMR Data Integration Automation:** Downloading Excel files from EMR containing appointments, billed charges, claims, demographics, and other patient data, then publishing the data in our platform by sorting it as per client requirements.
 - **Insurance Eligibility Check:** Developed Python scripts for updating and validating insurance subscriber records in SQL databases.
 - **Payer Attestation Automation:** Downloading attestation PDFs from various payers, verifying file accuracy, and uploading them into the EMR system to ensure precise record management.
 - **Multiple EMR & Payer Automations:** Performed various automation tasks across multiple EMRs, payer systems, and different use cases, delivering scalable solutions and improving operational efficiency.
-

Education

- **Naveen High School** | Secondary (Board of Secondary Education, A.P.) | 2015 – 2016
CGPA: 8.8 / 10
- **Sri Chaitanya Junior College** | Senior Secondary (Board of Intermediate Education, A.P.) | 2016 – 2018
Marks: 956 / 1000
- **Kalasalingam Academy of Research and Education** | B.Tech (CSE) | 2018 – 2022
CGPA: 7.89 / 10

Skills

- **Programming Languages:** Python, C, Java (Beginner)
 - **Automation Tools:** RPA Framework (Robocorp, Selenium)
 - **Databases:** MySQL
 - **Markup Languages:** HTML
 - **Soft Skills:** Analytical Thinking, Problem Solving, Collaboration, Documentation
-

Certifications

- Certified in Python (Coursera – Programming for Everybody)
-

Languages Known

- Tamil (Read, Write, Speak)
 - Telugu (Read, Write, Speak)
 - English (Read, Write, Speak)
 - Hindi (Read, Write, Speak - Beginner)
-

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
